

Get more leads and grow your property management business

Grow your email list, get more leads and increase business opportunities with our Lead Generation tool.

How It Works

Collect qualified leads 24/7 with our Lead Generation tool

1

You offer business prospects a rent report using your Lead Link or Lead Button

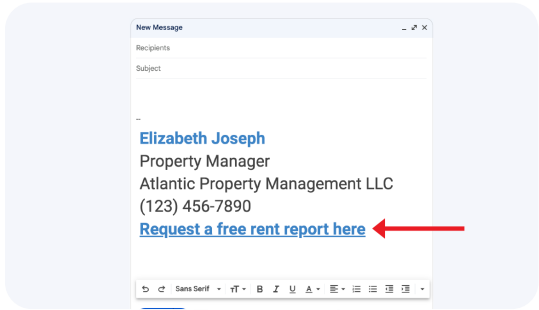

2

Prospects enter their information

3

The rent report is emailed to them and their contact info is added to your Lead Dashboard

Rentometer gives you two ways to offer prospects a rent report. Use our easy Lead Link or our website-friendly Lead Button.

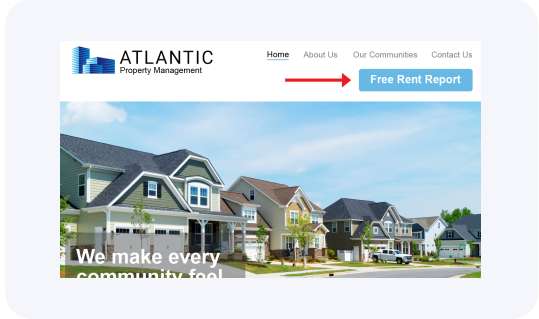

Lead Link

Your Lead Link is a custom URL that brings visitors to a rent report request form. Share your link anywhere - including your email signature, marketing emails, and social media. Prospects click your link to request a rent report and you'll collect quality leads.

Implementation info

- Level of difficulty: Easy - no technical experience required
- How to implement: Generate your link in seconds and start sharing immediately. [View setup page](#).

Lead Button

Your Lead Button is a customizable “Free Rent Report” button to add to your website. Prospects click your button to request their rent report and you'll collect quality leads.

Implementation info

- Level of difficulty: Easy for website managers (copy and paste code)
- How to implement: Copy and paste our script into the HTML source code on your website. [View setup page](#).

Features

Automated Leads

Collect leads 24/7 with your Lead Link or Lead Button

Custom Branded Rent Report

Prospects will receive a high quality rent report, custom branded with your logo and contact information.

Lead Dashboard

Incoming leads automatically populate in your Lead Dashboard.

Requirements and Pricing

- [A Pro subscription](#)
- Pro Reports  
Each rent report requested by a prospect = One (1) Pro Report
- Subscribers can view their Pro Report balance in [My Account](#)
